Crewmori

Brand identity guidelines

Working Seam / Version 1.0 / October 2026

A system for everyday work

The logo stays consistent. The team brings it to life.

01	**Foundation**	Purpose, audience, principles and voice	03-06
02	**Logo system**	Construction, clear space, variants and use	07-15
03	**Visual system**	Color, typography, layout and illustration	16-27
04	**Applications**	Product, documents, social and connected tools	28-38
05	**Implementation**	Assets, tokens and production handoff	39-40

Your business team, with you in charge

Crewmori supports the business around your commissioned professional work.

Six specialists help find opportunities, prepare promotion, support sales, manage client relationships, coordinate operations and check payment records.

The freelancer performs the professional work and retains control over approval-required actions.

Positioning: a freelancer-owned AI business team that turns delegated business tasks into useful, reviewable outputs.

Professional support with a human presence

For the independent professional

A capable team that feels approachable and respects the owner’s independence.

For the client

A clear business identity on proposals, invoices and pages that disclose an AI representative.

Capable

Specific work and useful outputs

Companionable

Warmth without childishness

Clear

Readable terms and next actions

Accountable

Visible ownership and approvals

These are intended brand qualities, not claims of measured customer preference.

Identity principles

01 The owner remains visible

Place decisions, responsibility and approval controls where they can be understood.

02 Useful work leads

Show the artifact, its state and the next action. Keep technology claims secondary.

03 Personality has a place

Coworkers supply expression. The core mark remains stable and recognizable.

04 Calm design earns attention

Use hierarchy, space and one dominant action rather than constant animation.

Voice and interface copy

Friendly, capable and factual. Name the output and the next useful action.

Situation	Approved example	Rule
Draft ready	Your proposal draft is ready to review.	Describe the artifact and its state.
Owner decision	Approve proposal v3 for Alex?	Name the version and destination.
Waiting for input	What delivery date can you commit to?	Ask one concrete question.
Handoff	Scout shared the brief with Sales.	Name sender, receiver and output.
Recovery	Scope changed. Review this version again.	Explain what needs attention.

“Saved”, “sent”, “connected” and “completed” appear only after the corresponding confirmed event. Buyer pages disclose AI representation.

Logo system

Working Seam

Two complementary bands.
One recognizable business identity.

The primary logo

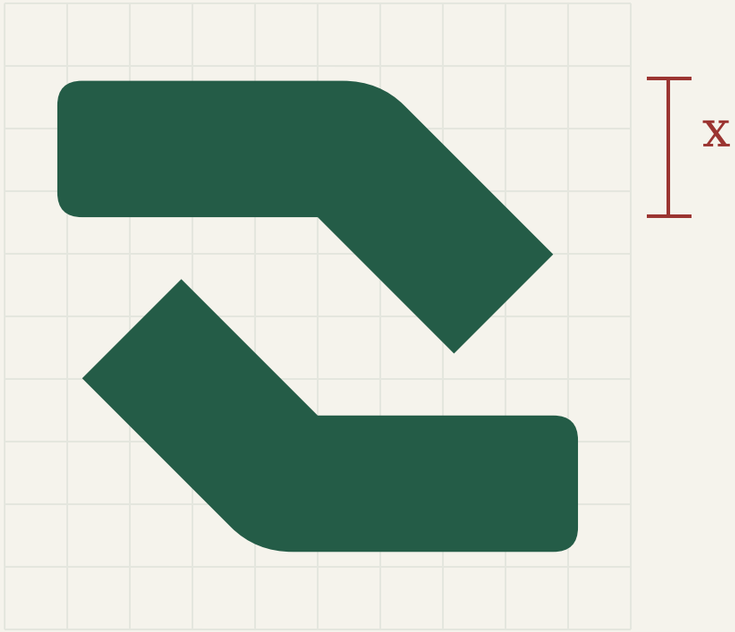

The visible idea

Two distinct contributions relate through one open seam. The construction suggests a coordinated handoff.

The brand relationship

The stable symbol sits beside an editorial wordmark. Coworkers add expression around the identity.

Construction and proportion

x = 22 raw units

Measure x vertically across a horizontal band.
The visible symbol measures 84 × 76 units.

Horizontal gap: x
Wordmark cap height: 55% of symbol height
Relationship between bands: 180° rotation

Use supplied artwork. The wordmark’s visible bounds are vertically centered against the symbol; its round-letter overshoot stays intact.

Clear space

Minimum clear space = one ribbon thickness

Measure from visible artwork, including the tips. Supplied production canvases already include x on every side. Text, images and characters stay outside it.

The logo family

Primary / horizontal

Stacked

Symbol

Wordmark

Horizontal is the default. Use stacked for compact brand panels, symbol for constrained slots, and supplied wordmark only when the symbol already appears nearby.

Minimum sizes and compact icons

Version	Digital canvas	Print canvas
Primary / horizontal	200 px wide	45 mm wide
Stacked	160 px wide	35 mm wide
Wordmark	150 px wide	30 mm wide
Standard symbol	24 × 24 px	6 × 6 mm

Browser favicon

16 px

24 px

32 px

Use supplied compact browser favicons at 16-64 px. These browser slots waive x internally. The minimum slot is 16 px.

All sizes refer to the complete supplied canvas, including its built-in space. Print minima are conservative production recommendations. No path alteration is needed for the favicon.

Approved logo colors and backgrounds

Forest on ivory or white

Reversed white on forest

Black for single-color reproduction

Reversed white on plain ink

Pastels identify specialists, not alternate logo colors. Use a solid field behind the logo when imagery or texture would compete with its seam.

Alignment and placement

Default placement

Top left on websites, documents, social posts and presentation covers. Align visible artwork, allowing for built-in space.

Centered exceptions

Social avatar, favicon and app icon tiles. Use the supplied square assets without moving individual bands.

Edge margin = the larger of x or 5% of the composition’s short edge. Keep the same margin for logo, headline and supporting copy.

Incorrect usage

Stretched proportions

Unapproved color

Rotation

Separated bands

Outlined artwork

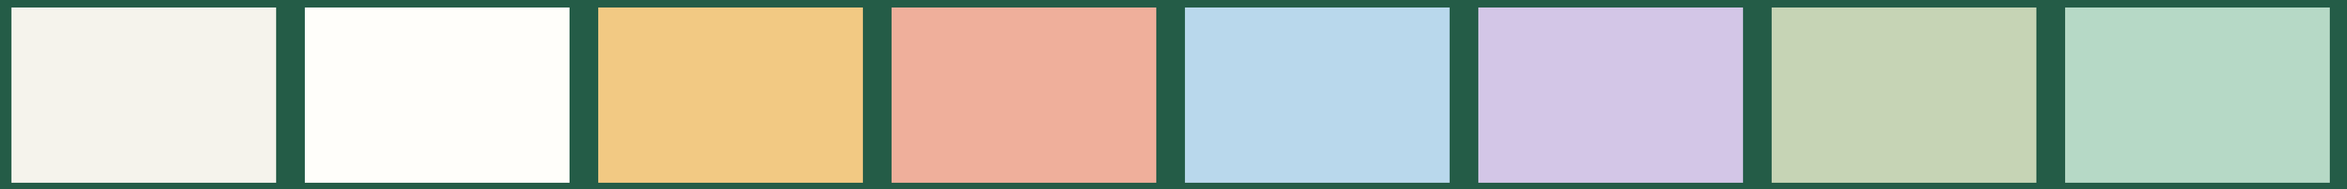

Crowded clear space

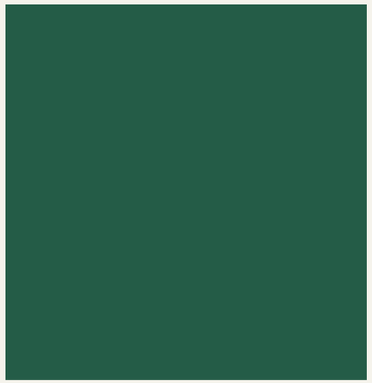

Also avoid shadows, gradients, cropping, adding a face, placing a character in the seam, or recreating the wordmark by typing it.

Color and typography

Warm surfaces.
A clear working hierarchy.

Core palette

Forest

#245C47

RGB 36 / 92 / 71

CMYK 61 / 0 / 23 / 64

Ivory

#F5F3EC

RGB 245 / 243 / 236

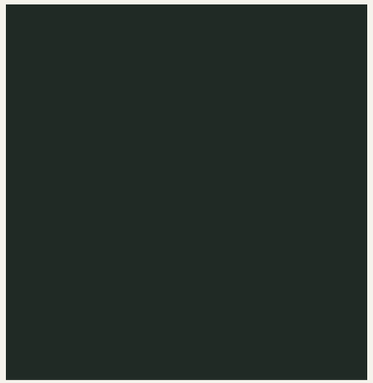

CMYK 0 / 1 / 4 / 4

Paper

#FFFEFA

RGB 255 / 254 / 250

CMYK 0 / 0 / 2 / 0

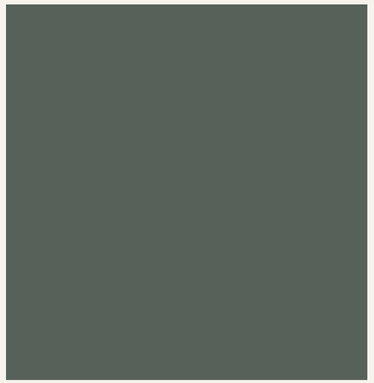

Ink

#202A25

RGB 32 / 42 / 37

CMYK 24 / 0 / 12 / 84

Muted

#566159

RGB 86 / 97 / 89

CMYK 11 / 0 / 8 / 62

Border

#D9DED3

RGB 217 / 222 / 211

CMYK 2 / 0 / 5 / 13

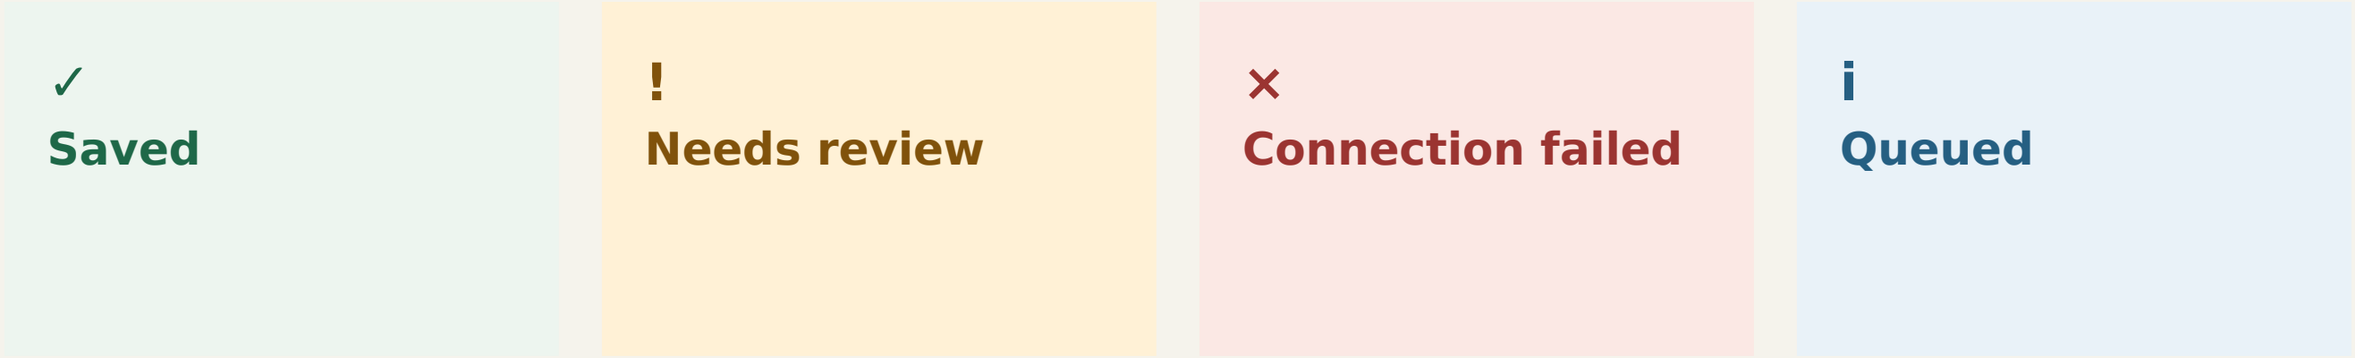

HEX and RGB are the digital source of truth. CMYK values are starting conversions from sRGB; a printer must convert for the chosen profile and proof on the actual stock.

Specialist identity colors

Scout	Promoter	Sales	Account Manager	Operations	Finance
#F2C983	#EFAF9B	#B9D8EC	#D3C6E7	#C6D4B5	#B6D9C6
RGB 242 / 201 / 131	RGB 239 / 175 / 155	RGB 185 / 216 / 236	RGB 211 / 198 / 231	RGB 198 / 212 / 181	RGB 182 / 217 / 198
Opportunity fit	Promotion drafts	Buyer conversations	Client relationships	Capacity and timing	Payment records

Use Ink #202A25 for text on these tints. Keep the role name visible. Finance mint does not mean success; Promoter coral does not mean error.

Status colors

Success

Text #1E6848
Surface #EDF5EF
Contrast 6.04:1

Warning

Text #80520B
Surface #FFF1D6
Contrast 6.01:1

Error

Text #9B3431
Surface #FBE8E4
Contrast 6.06:1

Information

Text #255F82
Surface #E9F2F8
Contrast 6.10:1

State text is always required. Semantic color treatments also include an icon. Plain state text on a neutral surface is sufficient. Keep role tints separate.

Contrast and functional color

Approved pair	Ratio	Use
Ink on Ivory	13.33:1	Body text and essential terms
Muted on Ivory	5.82:1	Supporting text
White on Forest	7.79:1	Primary buttons and reversed identity
Forest on Selected #E5EFE7	6.61:1	Selected navigation with a second cue
Border on Paper	1.36:1	Decoration only

Internal targets

Normal text ≥ 4.5:1. Required UI boundaries and focus ≥ 3:1.
Use Muted for input borders. Recheck transparency, imagery and actual rendered states.

Typography families

DejaVu Serif

A business team behind your work.

Editorial display / Regular 400

DejaVu Sans

Your proposal draft is ready. Review the scope and choose what happens next.

Interface and body / Regular 400, Bold 700

DejaVu fonts use the Bitstream Vera license; DejaVu changes are public domain. Install the included fonts for PowerPoint editing. The logo wordmark is an outlined asset.

Typography hierarchy

Role	Family / weight	Size / line height	Use
H1	Serif Regular	44 / 52 px	Page title
H2	Serif Regular	32 / 40 px	Editorial section
H3	Sans Bold	24 / 32 px	Functional section
Body	Sans Regular	16 / 24 px	Reading and controls
Small	Sans Regular	14 / 20 px	Supporting labels
Metadata	Sans Regular	12 / 16 px	Timestamps and sources

Fallbacks: Georgia / Times New Roman for display; Arial / system-ui for Sans. At ≤768 px, H1 becomes 32/40 px. Use right-aligned tabular numerals for amounts.

Spacing and grids

4 px base unit

16 px between related controls
24 px between card groups
32 px between desktop sections

Desktop shell

224 px sidebar / 72 px header
32 px workspace padding at ≥1280 px
2:1 content columns / 24 px gutter
24 px padding from 769-1279 px

At ≤1024 px, collapse the context rail. At ≤768 px, use one content column, 16 px padding and bottom navigation with reserved safe-area space.

Corners, elevation and control states

8 px

Button / field

12 px

Card

16 px

Drawer

Review draft

Default

Review draft

Disabled

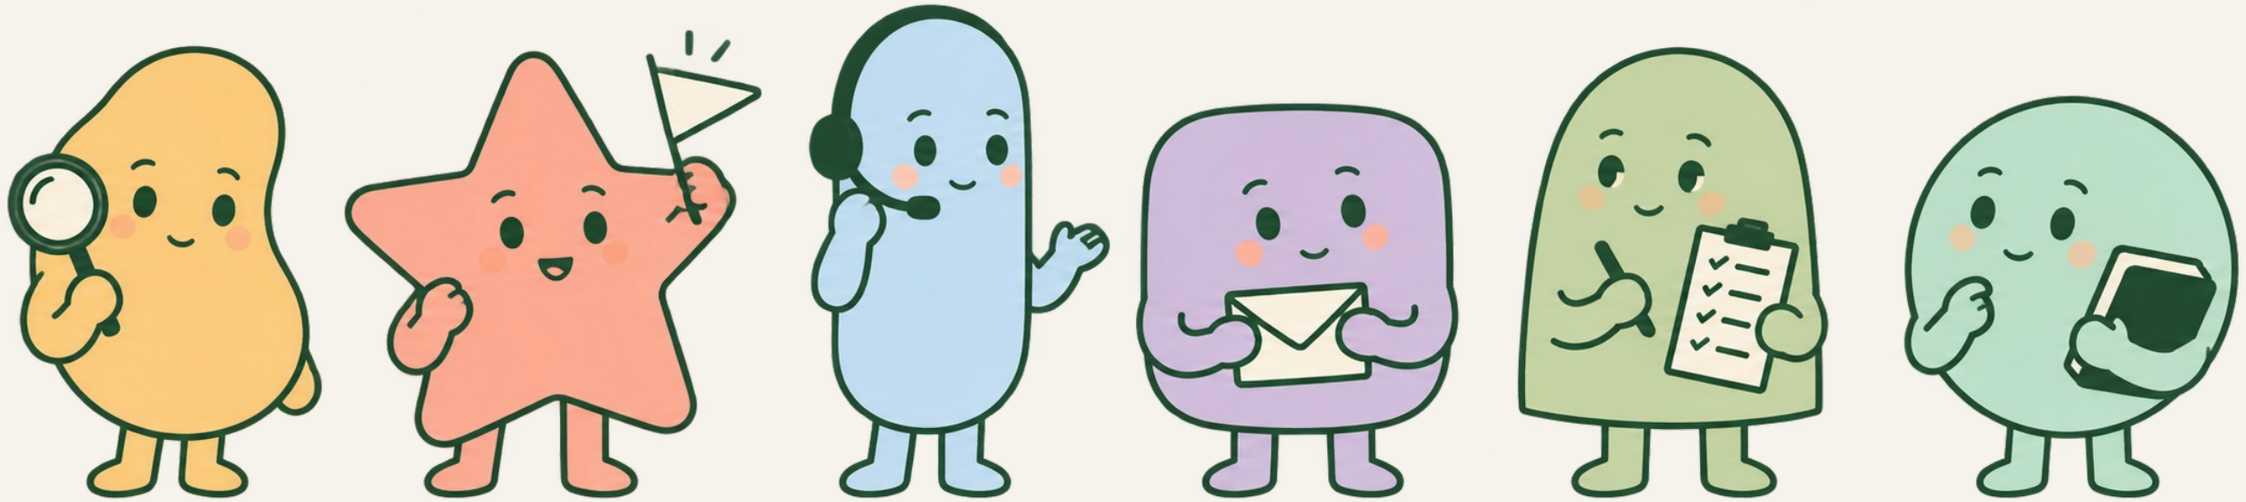

Review draft

Focus 2 px / offset 2 px

Targets are at least 44 px high. Flat surfaces are the default; overlays alone use 0 8px 24px rgba(32,42,37,.10). Input boundaries use Muted.

Icon and illustration direction

ILLUSTRATION DIRECTION STUDY

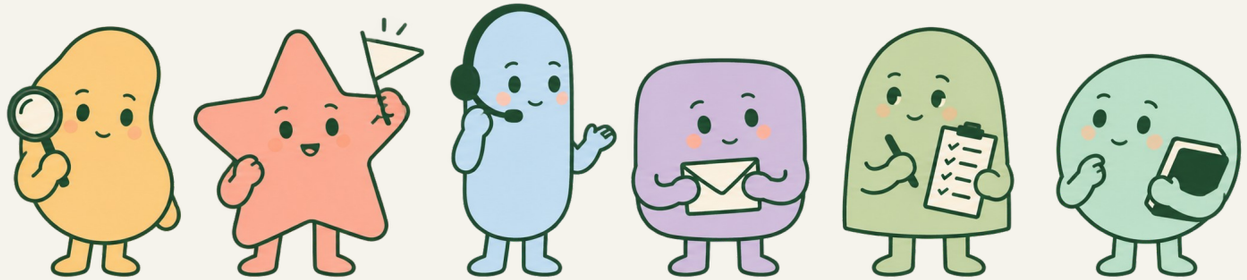

Scout | **Promoter** | **Sales** | **Account Manager** | **Operations** | **Finance**

Stable role silhouettes, forest outlines and restrained pastel fills. Use a 24 px outline icon system with 2 px strokes and rounded joins. Character artwork shown here is a direction study.

One identity, six coworkers

Crewmori

The logo owns the header. Coworkers occupy the working area.

Keep every illustration outside the logo’s x clear space. Characters never replace a band, sit in the seam, wear the logo, or obscure prices, sources and approval controls.

Motion follows meaningful work

01

Draft saved

Scout prepared a brief.

02

Handoff recorded

Scout shared it with Sales.

03

Review needed

The owner has a clear next action.

160-240 ms

At most two task-linked cursors.
Reduced motion uses static labeled focus and state updates.

Default duration 200 ms; easing cubic-bezier(.2,0,0,1). Keep logo bands together. No idle typing, random cursor travel, looping bounce or simulated progress.

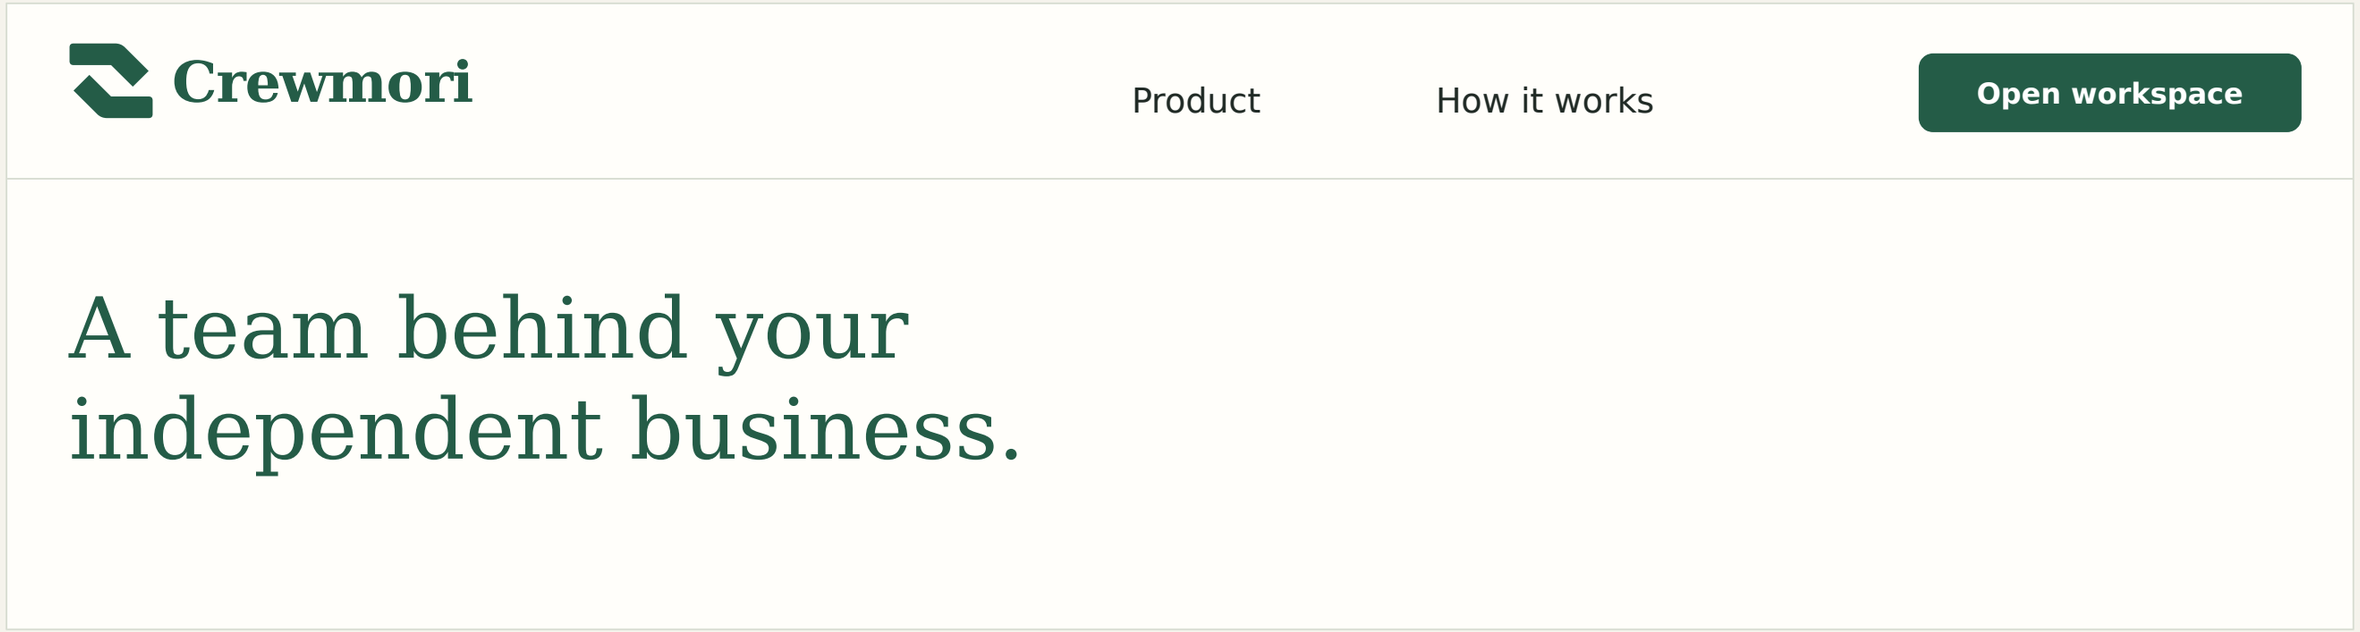

Applications

Crewmori

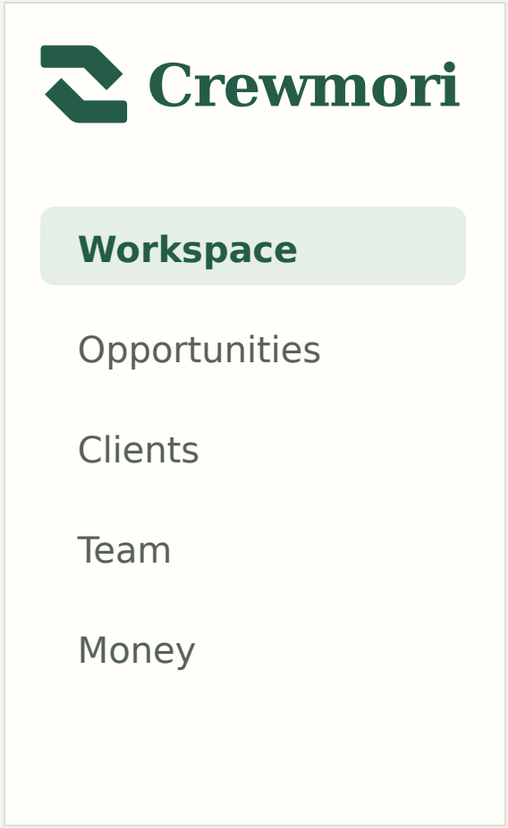

One system across the places work happens.

Website header

Header height 72 px in the product. Primary logo canvas ≥200 px wide. Keep the brand at the left and a single dominant action at the right. Example shown at presentation scale.

Sidebar, favicon and app icon

Compact identity

16 px 24 px 32 px

Ivory on Forest
Radius 18.75% of tile
Visible symbol width 65.625%

App tile

Desktop sidebar is 224 px; example is enlarged. Use supplied icon tiles. App icon padding is built in; apply platform masks without changing the mark.

PROPOSAL

Prepared for Cedar Studio

Motion design / 2 assets
Proposed fee: USD 450
Owner approval before sending

Noor Studio

Business support by

Crewmori

INVOICE

Prepared for Cedar Studio

Invoice example CM-001
Deposit 60%: USD 270
Remaining gross balance: USD 180

Use the freelancer’s identity as the service provider. Crewmori may identify the supporting business team. On A4, use a primary logo canvas at least 45 mm wide. Sample data only.

Social profile and social posts

Profile image

Centered supplied tile. No extra text or character.

Posts keep the logo at the upper left, outside copy and imagery. Use solid approved backgrounds. Preserve at least x or 5% of the short edge as the outer margin.

Presentation cover

Use one display headline, one supporting line and the primary logo. Keep the cover calm; preserve the same visible-artwork alignment as other formats.

Co-branding and connected tools

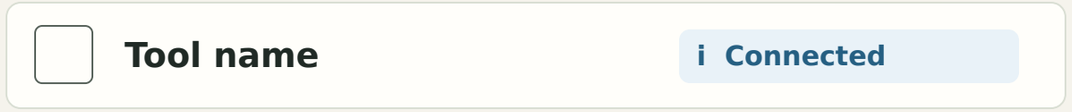

Co-branded example

Partnership

Use approved partner artwork. Match optical weight, respect both clear-space rules, and leave at least 2x between visible marks.

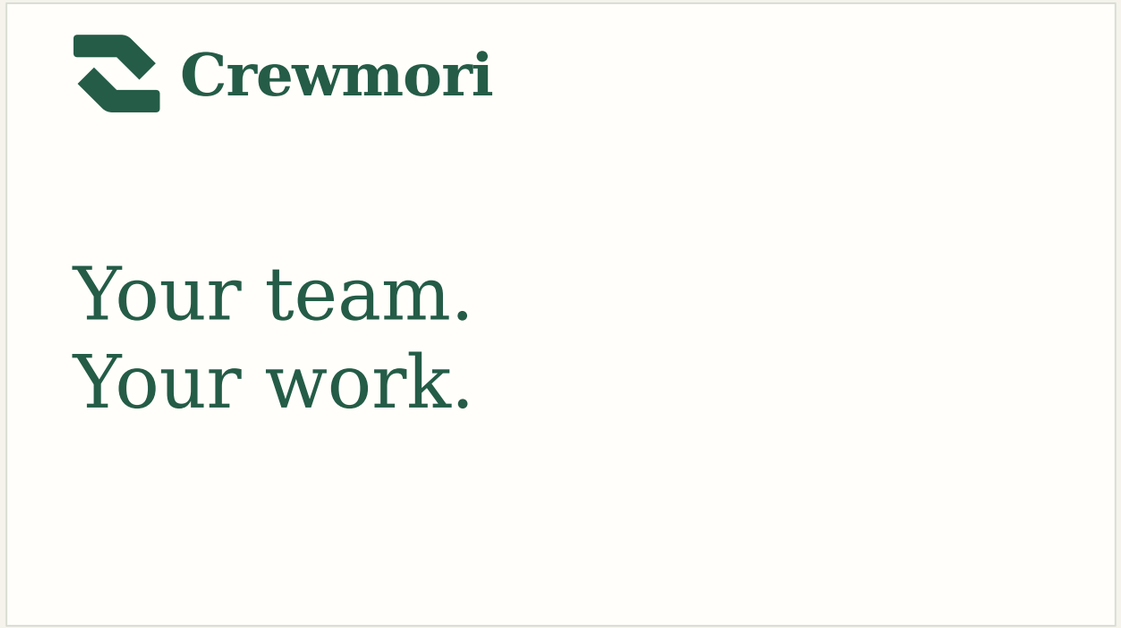

Connected tools

Keep tool artwork separate and describe the actual connection. Support does not imply endorsement.

PARTNER and Tool name are artwork placeholders; the connection state is illustrative. Connected-tool marks never form a combined Crewmori logo.

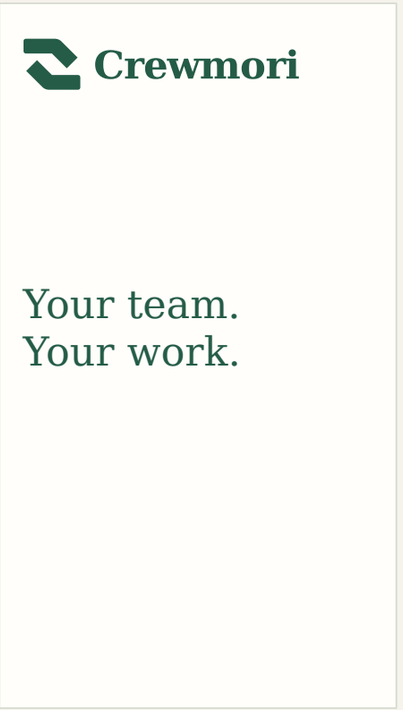

Horizontal, square and vertical layouts

Horizontal

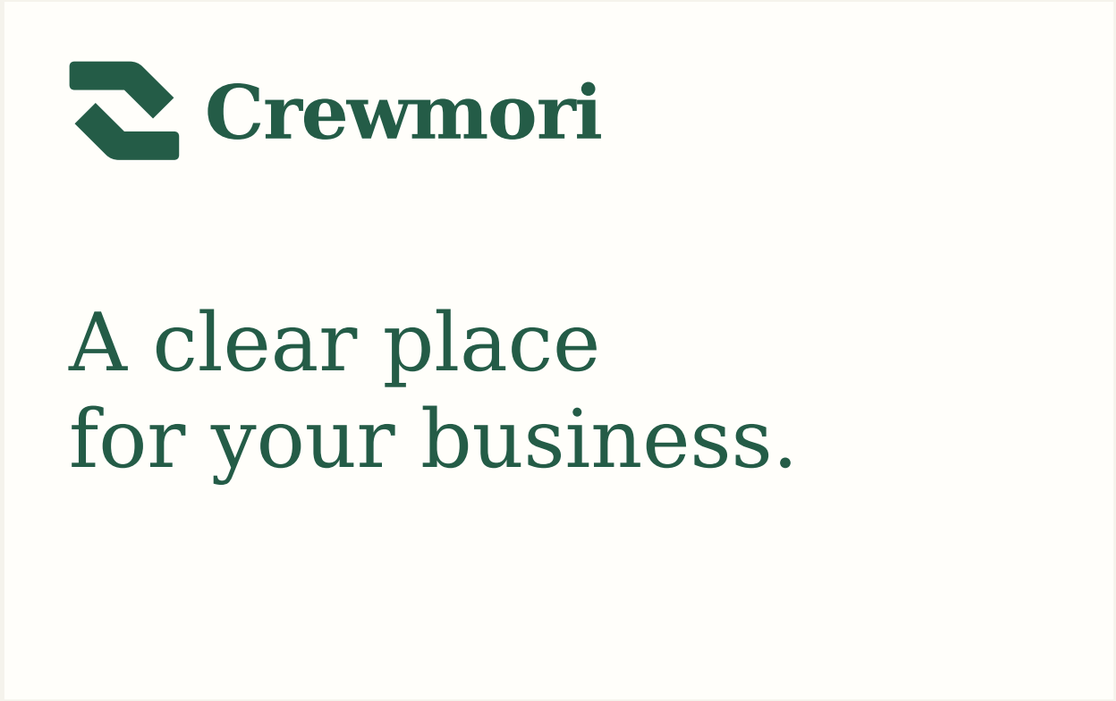

Square

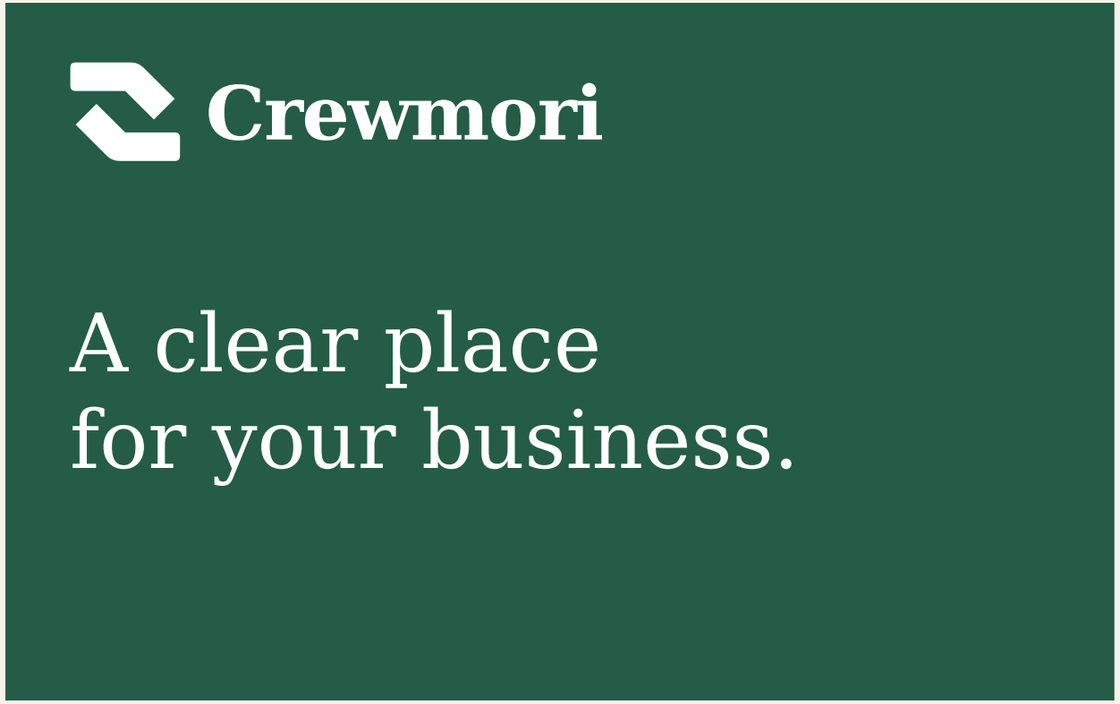

Vertical

Outer margin = max(x, 5% of the short edge). Keep the logo upper left, align visible artwork with the headline, and leave at least 25% free of content. Diagrams are schematic; apply minimum sizes to the final export.

Light and dark brand applications

Forest supports brand covers, social posts and approved dark fields. These examples do not establish a separate dark product theme. The application’s reading surfaces remain ivory.

Asset and implementation map

Need	Source	Implementation rule
Logo	assets/primary, stacked, symbol, wordmark	Use the supplied SVG or transparent PNG.
Favicon and app icon	assets/favicon and assets/app-icon	Use the native-size export for its slot.
Colors and type	tokens/crewmori-tokens.json and .css	Import tokens rather than sampling artwork.
Editable guideline	guide/Crewmori_Brand_Guidelines.pptx	Install the included fonts before editing.
Build sources	source/ and assets/geometry.json	Preserve coordinates and linked file structure.
Future product work	BRAND.md	Apply the same rules across screens.

The complete package includes this PDF, editable PowerPoint, vector masters, transparent exports, fonts and licenses, tokens, geometry and reproducible source files.
