Layout Guideline

The current layout is an upgraded from the latest layout with a clean cut design, simple but still elegant and sharia ambience.

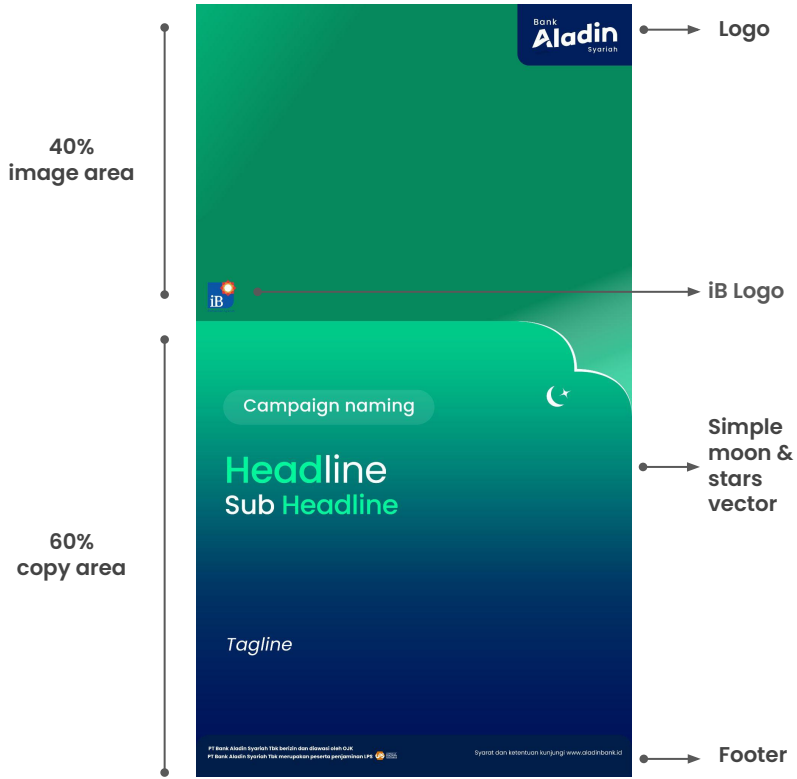

First, we start the layout journey with a real image to get the market's attention from the left. Usually, the audience will focus their attention on the left side first.

The new layout also add a iB logo on the bottom left corner.

After that, the audience will move their attention to read the whole copy.

- 40% image area is sufficient to grab the audience's initial attention.
- 60% copy area accommodates potentially lengthy, dense copy.
